

George Washington High School Form F - Food Sales Form

The Federal Regulations are in effect at GWHS from the start of the designated breakfast period until the end of the designated lunch period. The sale of competitive food sale items is limited to break time after lunch and after school. All other times are prohibited especially during instructional hours. The administration reserves the right to restrict food sales at any time throughout the instructional day.

Requirements for obtaining a health permit to sell food during school change slightly from year to year. Organizations wishing to sell food or drinks should check with SBA Advisor when school opens each year.

Food items prepared that are not pre-packaged require the person preparing such items to have a food handler's license. All pre-packed food items must have a tag, which identifies the person(s) who prepared the item, vendor license number, and date in which the items was prepared.

	Date(s) of Sale	Time of Sale	Name of Sponsoring Organization
1	Food/Drink Item	Disposition (For office use only)	Comments (For office use only)
